Hi, Scott,

Tnx for the nice chat. Your RF clipper sounds very good, and I'd appreciate the details on it. Good luck in the Field Day.

73, Stu

Pres, RWK

The call letters on this QSL are in the style of a Texas brand. Such brands marked ownership of cattle who roamed on open range during the 19th century. Ingenious designs were created to deter cattle thieves and to personify the owner or his ranch. The coming of fences made brands less necessary, but they remain popular as personal emblems reminiscent of the Old West.
